

The diagram illustrates a network system. On the left, a large rectangular box represents a base station or network hub, containing several internal components labeled 10, 11, 12, 13, and 21. A dashed arrow points from component 21 to a stick figure labeled 18, representing a user. To the right, a curved road shows a car labeled 17. Above the road, a cloud labeled 16 is connected to three circular nodes labeled 15. A solid arrow points from the cloud 16 to a rectangular box labeled 14. Another cloud labeled 17 is at the bottom right, connected to the road area by a vertical line. The entire scene is set against a background labeled 19.
